CLASS NEWS

This was a busy and exciting week. On Wednesday, we enjoyed the morning kindergarten's nursery rhyme show and on Friday, we participated in the winter carnival.

Happy Vacation Everyone!

MATH

In math we have started unit 9, Double Digit Subtraction. This is a tricky topic and we have slowed way down to understand the concept better. We will need to review and practice more after vacation.

We are working on our subtraction facts. This week we have combined the three strategies we have learned so far and practiced them all mixed up. Those facts are -1 , -10 and parts of 10 (ex. $10-2$, $10-7$, $10-4$ etc.).

READING & WRITING

In reading groups we have been working on the sound of ai and ay. Our vocabulary words are informs, heal, personal, serious and broken. We have been reading stories about hospital helpers and staying healthy.

In writing, we used some sentences about pets to create a story with more details. Last week we were rewording questions to write full sentences. This week we expanded those sentences and turned them into a story.

Up Coming Events

Winter Vacation
Feb. 21-Mar. 1
No School!

Science & Social Studies

This week we have spent some time studying presidents. We took a close look at Abraham Lincoln and George Washington. We watched a video about each president and completed a time line for George Washington.
